

HeaderTech::Render  
::RenderContext::DidRender  
DebugGUI

```
graph LR; A[HeaderTech::Render  
::RenderContext::DidRender  
DebugGUI] --> B[HeaderTech::Core::Api  
::Render::RenderContextApi  
::DidRenderDebugGUI];
```

A diagram showing a dependency from a module to a core API. On the left, a gray box contains the text 'HeaderTech::Render', '::RenderContext::DidRender', and 'DebugGUI'. A blue arrow points from this box to a white box on the right. The white box contains the text 'HeaderTech::Core::Api', '::Render::RenderContextApi', and '::DidRenderDebugGUI'.

HeaderTech::Core::Api
